

Under the law patients who are uninsured or who are not using their health care coverage to pay for services have the right to receive an estimate for services prior to those services being provided.

You have the right to receive an estimate that includes the total cost for your visit for all the services that will be provided during that visit by your provider.

You have the right to receive a timely estimate. If you schedule at least 3 business days in advance you can expect an estimate within 1 business day. If you schedule at least 10 business days in advance you can expect an estimate within 3 business days.

You have the right to receive your estimate in writing.

If your **bill for services** is more than \$400 more than your estimate you can dispute the bill.

Questions?

If you have questions or concerns, you can call Bear Valley Medical Clinic at (541) 237-5040 or bring it up at your next appointment.
